Prompt 1

Describe the strategies and actions in place to co-select clinical educators and collaborate to prepare, evaluate, and support high-quality clinical educators, both provider and school-based, who demonstrate a positive impact on candidates' development and pre-k-12 students. *NOTE: Responses should not exceed one page per prompt*.

This agreement signifies the commitment of both the EPP and the partner LEA to collaborate for enhancement of the experience of clinical educators and their impact on the education preparation pipeline as well as positive impact on Pre-k-12 students in the LEA. The Clinical Experience Handbook will be discussed in the summer and fall 2024 meetings and collaborative changes will be made inside the Handbook. The fully revised Clinical Experience Handbook will be made available at the beginning of each academic year and then reviewed at the spring Partnership Data meeting for clarification purposes or to update to meet the current clinical experience requirements set by the Educator Preparation Policy. The Clinical Experience Handbook will be the shared resource that identifies the roles and responsibilities for clinical expectation and the provider and school-based clinical educators. The EPP and partner LEA will work together to identify qualified and effective school-based clinical educators. For each preparation program type, the LEA and EPP will identify the indicators of effectiveness for the clinical educators during the summer meeting. The LEA will provide to the EPP the school-based mentor's information, such as the mentor's name as it appears on the TDOE educator license, the TDOE educator license number and area(s) of certification and license type. This is to ensure that the mentor meets the requirements in the Educator Preparation Policy. If the clinical educator was involved with teacher candidates from the EPP during the previous school year, the information from teacher candidate and clinical supervisor surveys will be shared and used to select, prepare, evaluate, support, and retain high quality clinical educators. The EPP will request from the LEA recommendations of effective educators no longer employed by the LEA to serve as clinical educators. The LEA may invite the EPP to participate in the interview process for provider-based clinical educators. The EPP will assess clinical practice experience by soliciting feedback from program completers, school-based mentors, and provider-based clinical supervisors. Data will be summarized and shared with the LEA to address any areas for improvement in clinical experience. Clinical educators will receive actionable feedback on their performance through observation and assessment for purposes of improvement provided by the EPP and partner LEA. School and provider-based clinical educators will have the opportunity to participate in EPP and LEA training and professional development to increase their effectiveness as clinical educators. Schools-based clinical educators will sign an agreement that lists the expectations for any-required training necessary to serve as a clinical educator. LEAs will allow EPP representatives to attend professional development opportunities as appropriate to stay informed of best practices in the field. EPP representatives will offer professional development based on partner LEA need. With the goal of retaining high-quality clinical educators, the LEA and EPP will work toward identifying ways the clinical educator is recognized for their work and training. The EPP will seek feedback from the clinical educators for the purpose of improving their experience and, in turn, increase the support and retention of high-quality clinical educators.

Prompt 2 Describe the design and implementation of clinical experiences, utilizing various modalities, of sufficient depth, breadth, diversity, coherence, and duration to ensure candidates demonstrate their developing effectiveness and positive impact on pre-k-12 students (For instructional leader programs, ensure how clinical experiences allow opportunities for candidates to practice applications of content knowledge and skills.). NOTE: Responses should not exceed one page per prompt.

In addressing the need for a high quality teacher candidate, EPP Clinical Experience Protocols, as mutually-agreed upon by the district and the university, demand that prior to entering the clinical practice, the teacher candidate will have submitted a criminal history records check conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation. The teacher candidate will have obtained a qualifying score on the ACT, SAT, or the reading, writing and math subtests of the CORE Praxis. The teacher candidate must have completed all required coursework, passed all required PRAXIS exams, and will have a minimum GPA of 2.75. In the provision of sufficient depth, breath and coherence, the district agrees to place the teacher candidate with level 4 and 5 educators in the classroom. As mutually agreed by the district and the EPP, in the provision of sufficient duration of the clinical experience, there will be two placements for each teacher candidate. The first placement is for ten weeks in length and the second placement is for five weeks for a total of two placements in two settings. The placement will offer the teacher candidate the opportunity to work with all students, including those with diverse backgrounds and needs. The second placement will be in a grade level that ensures the breadth of the endorsement subject area and grade band area are experienced. Exposure to various modalities of instruction, such as in-person learning using direct instruction and individualized technology, as well as online direct instruction and use of online instructional platforms, may be available in the clinical experience. Teacher candidates will complete the edTPA assessment during the first placement. Teacher candidates will follow the district's school schedule of holidays, professional development, etc. Teacher candidates will participate in all mentor teacher activities to include faculty meetings, bus duty, staff professional development, parent conferences, parent-teacher organization meetings, IEP meetings, etc. unless otherwise directed by the principal of the school. The clinical educator will work cooperatively and collaboratively with the TWU clinical supervisor to formatively evaluate and direct the activities of the teacher candidate in the interest of developing and evaluating instructional effectiveness and positive impact on the PreK-grade 12 students. The teacher candidate, with guidance from the clinical supervisor and educator, will plan, instruct, and assess students in preparation for the edTPA portfolio. In collaboration and mutual agreement with the partner-LEA, the EPP-has developed requirements for completion of student teaching clinical practice and has outlined the causes and procedures by which the clinical practice can be terminated. Collaboration with the director of student teaching as outlined in the Clinical Experience Handbook will ensure the termination process is completed with fidelity and integrity should an issue arise with a teacher candidate.

Appendix A

Educational Partnership Award

Awarded to qualified new freshman who declare Education as their major. These students will get an additional \$2,500 scholarship per year (total value \$10,000) as long as they continue to be an Education major. The recipients must work with either the Education Department or a Community Partner 45 hours each semester (3 hours per week).

To qualify, students must be a graduate from a high school in a primary or state-approved partner with TWU. The student must be from:

- 1. An underrepresented racial/ethnic group or -
- 3. Declaring an education major that is an identified high-needs area.

The candidate must have an ACT composite score of 21 or SAT equivalent and a minimum high school GPA of 3.0.

Appendix B

Master of Arts in Teaching (MAT)

Program Description

The Master of Arts in Teaching (MAT) program at Tennessee Wesleyan is designed to offer many high-needs areas of endorsement. The program offers both a job-embedded pathway and a semester-long student-teaching pathway. The program is designed for working adults who have decided to bring their skills and experience into the classroom.

The MAT program is an initial licensure program, providing college graduates who did not complete a traditional teacher education program the opportunity to earn their graduate degree and teaching license.

Available Licensure Areas

- Special Education Interventionist (K-8)
- Elementary Education (K-5)
- Secondary Biology, Chemistry, English, History, or Mathematics (6-12)

Students complete a 36-semester hour program of study. Each program has a job-embedded pathway where the six-hour student teaching requirement is waived if the student is serving as a teacher of record for at least 100 days.

Hybrid Format

Students complete the majority of their coursework online, and they participate in one in-person class meeting each month (typically the second Saturday). The hybrid format accommodates professionals' busy schedules, without sacrificing important face-to-face time with colleagues and professors.

Program Completion Times

The MAT program has three main timelines for completion:

- Summer start date: 12 months over three semesters
- Spring start date: 16 months over four semesters
- Fall start date: 21 months over five semesters

After Teaching Feedback Form

Lesson Assessment

The Student Teaching After Teaching Feedback (ST-ATF) form is based on modified TEAM Instruction evaluation indictors. The ST-ATF is designed to help candidates progress during student reaching with feedback provided by classroom teachers or university instructors. The purpose of the ST-ATF is to allow candidates to learn the TEAM Instruction evaluation indictors. Candidates may be asked to self-assess or reflect on descont teacher or university Instructor feedback based on the form. The basis for judgement of the ST-ATF form will follow TEAM Instruction evaluation protocol with scores ranging from Singlificantly Above Expectation (5) to ATF form will follow TEAM Instruction evaluation protocol with scores ranging from Singlificantly Above Expectation (5) to ATF form will follow TEAM Instruction evaluation protocol with scores ranging from Singlificantly Above Expectation (5) to ATF form will follow the score of the score

Overall Programming:

- 20 The program was cohesive.
- The instructors were knowledgeable about educational content.
- The program integrated the study of teaching with the practice of teaching.
- The program had a strong disciplinary component with strong integration of subject matter and core concepts.
- 24 The program gave me a solid foundation in reading.
- The program gave me a solid foundation in mathematics.
- The program gave me a solid foundation in science.
- 27 The program was academically challenging.
- The program adequately represented the realities and challenges of schools.
- The program gave me a foundation for adapting instruction to meet the needs of diverse learners.
- The program gave me a foundation for adapting instruction to meet the needs of students with disabilities.
